Hotel For Sale.
THE HOTEL known as the LEWIS HOUSE located in the City of Fond du Lac, State of Wisconsin, is now offered for sale, together with Furniture and Fixtures complete, and immediate possession given. This property offers a rare inducement to any person wishing to go into the business. This house is doing an extensive business; and is as well known to the traveling public as any other house in the State; it has accommodations for 100 guests. The building is 70 feet front on Main street, 120 feet on Sheboygan street, 3½ stories high, with good Stables and 3 Artesian Wells of water, &c. This property is one of the best located of any in the city; it has front upon three different streets.
The city contains a population of 7000 inhabitants, and is growing as fast as any other in the State.

Notice Extraordinary!
WE WOULD NOTIFY the merchants and the public generally in the Western States that the Match Manufactory of R. W. PIERCE & CO., which by the skill and successful operation, notwithstanding the declarations of a match concern in Detroit, Mich., that our establishment had burned down, has R. W. Pierce & Co. had established a market for more R. W. Pierce's matches would be seen in market, &c. &c. We are well aware that all such assertions will in the time to come fall of effect upon those who originated them, and what we wish is, that the public should be set right in the matter. We now have facilities for manufacturing matches as cheap, or cheaper, than any other establishment in the West, and as to the quality, we will leave those who have used them for the last thirteen years to be the judges, and will only remark that our business has increased from less than $1000, in 1844, to more than $50,000, in 1856.
All orders for matches promptly filled.
Beware of Counterfeits!

PITTSBURGH, FT. WAYNE & CHICAGO
RAILROAD!
THIS New and Direct Route now open to New York, Boston, Pittsburgh, Philadelphia, Baltimore and Washington City, Cleveland, Dunkirk, Buffalo, Niagara Falls, and all Eastern Cities, Cincinnati, Indianapolis, Louisville, Cairo, Springfield, Urbana, Zanesville, Steubenville, Newark and Wheeling, and all interior towns of Ohio, Pennsylvania, Virginia, Maryland, New Jersey, &c., making one grand unbroken Rail Road Line between
CHICAGO AND THE EAST.
FARE AS LOW AS ANY OTHER ROUTE.
☞ Passengers wishing to go by this desirable and pleasant Route, should be particular and ask for Tickets by Fort Wayne, avoiding the annoyance of re-checking baggage as by other Routes.
Trains leave Depot on VAN BUREN ST., daily as follows:
7:00 A. M. 8:15 P. M.
With but one change of cars to Pittsburgh.
CHECKING BAGGAGE THROUGH.
To Pittsburgh, Philadelphia, Baltimore and New York. Connecting directly with trains on the great Pennsylvania Central Railroad, for all Eastern cities. Also, with Cleveland and Columbus Railroad to Cleveland, Dunkirk, Buffalo, Niagara Falls, via New York Central and New York and New England Rail Roads to Boston.
Persons going East will find this route by far the most desirable both from the advantage in point of distance, variety and beauty of the country through which the route passes, as well as the less frequent changes of cars, and the annoyance of re-checking baggage required by other routes.
Facilities for the transportation of Freight and Live Stock by this route, are unsurpassed. Rates as low as any other route, and with equal dispatch.
Tickets for sale at the principal ticket offices at the West, and at the Company's Office, No. 89 Dearborn St., opposite the Tremont House, Chicago, and at the office of the Lake Shore Railroad, Milwaukee, Wis.

ANNOUNCEMENT.
IN consequence of ill-health, I have felt it my duty under the advice of my physician, to give up business entirely. I have sold out my stock of Books, Stationery, &c., to Henry Kemphall, who has been with me during the past year, and for the four previous years with Messrs. D. Appleton & Co., of New York.
It is with no ordinary regret that I relinquish a pleasant and successful business, and close the connections which have existed between myself and my customers.
In Mr. Kemphall, I am assured that my old friends and patrons will find a thorough business man, who will treat them courteously, deal honorably, keep a good stock, and sell at reasonable rates.
N. B. All accounts for or against me will be settled by him. ARCHIBALD WILSON.
Milwaukee, March 30, 1857.

Having purchased the stock of Mr. Archibald Wilson, and his interest in the bookselling business in this city, I propose to continue the same at the old stand, and shall endeavor, by keeping a full and well selected assortment, and by careful attention to business, to merit patronage from both old and new customers.

(New Propeller)		

All of the above vessels are new, having been built within the past year, expressly for the Upper Lake trade, and are of great strength and power of engine, and unsurpassed by any in the trade. Shippers can rely upon securing to shippers of freight greater despatch, and a less rate of insurance than any other line.
They will be fitted out with all the modern improvements introduced for the safety of passengers and freight, with spacious and well arranged cabins for families and emigrants, affording them the cheapest, safest and quickest route for the West, and Cleveland to ports on the west shore of Lake Michigan.
The vessels of this line will run in connection at Buffalo with the
NEW YORK CENTRAL RAILROAD,
AND THE
Troy and Western Line of Canal Boats,
On the Erie Canal; at Cleveland with the
Cleveland, Pittsburgh & Wheeling Railroad,
Furnishing each of these companies tri-weekly accommodations for the shipment of freight and passengers.

The News Defending Galphinism.

The *News*, under a pressing sense of its obligations to the Federal Administration, defends and justifies the *forty thousand dollar* swindle, which RICHARD W. THOMPSON has just successfully accomplished, with the help of certain Federal functionaries. The argument of the *News* is that Congress on the 3d of March 1855, passed a bill appropriating this sum to Mr. THOMPSON, and that President PIERCE approved it.—So far, true; but what else? Let the *News* tell the whole story; or dispute ours, if it can. The facts are briefly these.

The Menomonee Indians complained of the treaty framed by Mr. MEDILL in 1848, and sent on a delegation to Washington to procure a modification of it. This delegation, while at the Capital, were introduced to Mr. THOMPSON, who drew up and sent in to Congress a memorial in their behalf. No attention, however, was paid to it, and nothing came of it. After the appointment of Dr. HUEBSCHMANN, as Superintendent of Indian Affairs in Wisconsin and Minnesota, a treaty was framed with the Menomonees, by Dr. H., under instructions from the Government, which was entirely satisfactory to the Indians and acceptable to the administration. This treaty provided for the payment of some $240,000 to the Menomonees. Mr. RICHARD W. THOMPSON had no more to do with it than the man in the moon. Indeed, Dr. HUEBSCHMANN declined his counsel, or company, in framing the treaty. No sooner was it ratified, however, that modest DICK THOMPSON claimed *one-third* of the sum contracted to be paid to the Indians. This impudent claim was resisted by the Indians and the Department. Dick then lowered his pretension from $80,000 to $40,000 and went to boring Congress for this amount. On the *very last day of the Session*, in the midst of the usual "noise and confusion" then prevalent, the Senate passed Dick's claim. It was amended in the House by attaching the *proviso*, that it should be ratified by the Indians. This amendment was *stolen* and therefore did not get into the general Appropriation Bill, in which Dick's "forty" was included. The President signed the bill, but before Dick could get his money, Superintendent HUEBSCHMANN filed a protest, in behalf of the Indians, against its payment. President PIERCE hesitated, but being advised by Mr. CUSHING, the Attorney General, that he could, for satisfactory reasons, *withhold* an appropriation, he decided to do so. Then Dick agreed to submit the question to the Indians, as had been provided in the stolen amendment. Accordingly the tribe was summoned together; Dick argued his own case, and Superintendent HUEBSCHMANN replied, while Mr. CLARK of Michigan, appointed by the Government to "see fair play" presided over the discussion. Ultimately, the Indians, by a *unanimous* vote, repudiated Dick's claim. Not yet discouraged, the persevering Dick went to work to make capital for himself among Mr. BUCHANAN's friends and supporters, and entered into contract to divert votes enough from Fremont to Fillmore, in Indiana, to give that State to Buchanan. He fulfilled in *his* part and now the Administration has fulfilled on theirs. They have paid Dick his *forty thousand dollars*. It is a clear, deliberate, unblushing, inexcusable *steal* from the Treasury. A manifest case of "bargain and corruption." The people's money feloniously taken to pay a political debt. And the *News*, as "official organ," justifies the transaction!

"NO RETURNS."—In many of the counties of this State, clerks have failed to return the result of the elections in their several towns to the county boards, and they have consequently not been counted. Some stringent provision should be made by which this neglect of duty should be punished. The officers should not be allowed thus to nullify an election by carelessness or wilful neglect of a plain duty.

CRAWFORD CO.—OFFICIAL.—In Crawford Co. Judge Whiton had 433 votes, and Cothren 292. Besides these, one town cast 33 votes for E. V. Whiting. It is astonishing that such a blunder should have been committed in several Counties, in various parts of the State, after all that has been said about it.

DOOR COUNTY—OFFICIAL.—The Green Bay *Advocate* brings us the official vote of Door county, on Chief Justice. Judge Whiton received 104 and Judge Cothren 7 votes. The county seat was removed to Sturgeon Bay, a young and thriving settlement, by 108 votes for, to 1 against.

OCONTO COUNTY—OFFICIAL.—The Green Bay *Advocate* publishes the following as the official result in Oconto county:

Chief Justice—Edward V. Whiton	117	maj.
County Judge—George Farnsworth	266	"
Sheriff—E. H. Mosher	121	"
Clerk of C. Court—Joseph Hall	216	"
Dist. Atty—J. J. McClellan	426	"
Coroner—S. B. Gilkey	416	"

DAMAGE TO THE WHEAT CROP.—A note to the Cincinnati *Commercial* from Vandalia, represents the recent freezing weather as very hard on the wheat crop, and the writer says that half the land sown will suffer greatly from this cause.—The same complaint is quite general in various parts of Indiana, Illinois and Michigan, as well as Ohio, and unless a sufficient breadth of ground is sown to spring wheat to make up the deficiency, there has already been enough damage done by frost to considerably diminish the aggregate of the coming crop.

THE NEW CENT.—The Philadelphia U. S. *Gazette* says that the new Cent will be distributed to the public in about three weeks. A million are already completed, and two millions more will be finished before the Mint commences paying them out. Col. Snowden declares that since the establishment of the Mint the large amount of eighteen hundred tons of copper have been used up in the manufacture of pennies, making 150,000 of pieces. The quantity of Spanish coin still in the country is estimated at two and a half millions of dollars.

NO LOSS AFTER ALL.—The Chicago Democratic *Press* of Saturday contains the following paragraph, in relation to the rumored loss of the Chicago, Fond du Lac and St. Paul R. R., by the failure of an English House:

We learn from the best authority that intelligence was brought out by the steamer America of the resumption of Messrs. Dodge, Bacon & Co., and that the business between that house and the Chicago, St. Paul and Fond du Lac Railroad Company had been satisfactorily closed without loss to the latter.

DESTRUCTION OF A SUSPENSION BRIDGE.—The iron wire suspension bridge, completed last summer across the Genesee river, at Rochester, below the lower falls, fell a few days since, from the weight of snow upon it. It cost nearly $30,000, and seems to have been very badly constructed. It was 700 feet long, and estimated to bear the weight of 2000 tons, while, according to the *American*, the weight under it gave way could not have exceeded 375 tons.

IMMIGRATION.—The tide of immigration is flowing strongly through New York this Spring. Thus far this month there have arrived at that port from Europe, 13,523 passengers, as follows, from Liverpool 7,798; Bremen 1,320; Hamburg 683; London 574; Havre 2,024; Antwerp 979; Glasgow 145.

A COMPLIMENT TO MILWAUKEE.—A new first-class locomotive, built at Jersey City, and called the "Milwaukee," has just been placed on the track of the Detroit and Milwaukee Railway.

The University is now in a prosperous condition and merits the cordial support and liberal patronage of our people.

CATTLE STARVING.—The very late spring is having a serious effect upon stock in portions of the country. In Eaton Co., Michigan, a great many cattle have died of absolute starvation.

The Buffalo *Courier* says that many are dying in Erie Co., and adds:

The hay is entirely consumed, and none can be purchased in the vicinity at any price. Some of the farmers have come into the city for corn, to keep their stock alive. In several towns in Cattaraugus county, cows are said to be dying for want of food. The snow still lies upon the ground, the roads are almost impassable, and as the hay, straw and grain are exhausted, there is no alternative for the farmers but to suffer their cattle to die. This is a sad state of things for the season of the year.

THE GREAT APRIL SNOW STORM.—In the interior of New York, the snow fell on the 16th inst., to a great depth. In Delaware County, the depth was nearly 3 feet, and many roofs were crushed by the weight of snow upon them.

Later from the Indian War—Names of the Killed.

RED WING, Minnesota, April 20.

EDITORS TRIBUNE:—Mr. Geo. C. Granger has just arrived from the scene of the massacres.—The Indians first made their appearance 100 miles south of Spirit Lake. They followed up the river, plundering and murdering up to Spirit Lake, and then turned east in the direction of St. Peter. At Spirit Lake they murdered forty whites. They killed James Matterocks and his whole family, and a Mr. Madison residing with them, numbering eight persons. Dr. J. H. Harriet Mr. Bartemus Snider, N. O. Granger (whose parents live in Michigan), Joseph Harshman (late from Indiana), H. Gardiner and family, (all except his daughter of 15 years old taken prisoner,) were all murdered. The Gardiner family, which was destroyed, numbered seven persons, including his son-in law, Mr. Lewis. Mr. Marble, of Iowa, was killed, and his wife, after having been first violated by the monsters, before his eyes, was carried away a prisoner. Mr. Howe and family were all killed, except his daughter of 18 years old, who was ravished and made a prisoner. Mr. Noble, wife and child, were murdered. Mr. Thacker was absent from home, but his wife was carried away and his child of eight months old murdered.

The band of Indians then proceeded to Springfield, in Minnesota, and attacked that settlement containing ten families, who were all fortified, in three houses, and one store—the latter belonging to Wm. and G. Wood; both were killed during the assault, and the contents of their store carried off. At the house of Mr. Thomas, a large number of shots were fired by the Indians. Mr. T.'s arm broken by a shot. David Carver was wounded in the side, and not expected to live. Miss Church was wounded in the shoulder very severely. Four or five of the Indians were killed by those inside.

The house of Mr. Steers was attacked and carried by storm, and all the inmates butchered, except a little son of Mr. Steers, eight years old, who escaped.

About 50 shots were fired at Mr. Smith's house, containing ten persons, none of whom were killed. The cattle were all shot down; the pockets of the killed were rifled—every valuable that could be carried off was taken. After the Indians decamped, the survivors made their way to Fremont city for safety. They suffered terribly from cold and exposure, some were barefooted, others half clad, and all destitute of food. They had to camp out at night, without shelter; and to ford streams on the march up to their necks. It was an awful retreat.—*Chicago Tribune.*

STRANGE AFFAIR—THE BECK FAMILY ALIVE.—We were astonished yesterday with the information, conveyed to us from a source which does not admit of a doubt, that Mr. and Mrs. Beck and their two children, who were believed to be identified among the dead bodies found in the house at Gerrard street, in this city, not having been on the cars that day at all. The man, who is a German, was employed by Mr. Warron of Hamilton, to peddle thware and castings, and being in arrears in his remittances, seems to have availed himself of the erroneous statement of his death to conceal his whereabouts. He has, however, been found out. The strangest part of the affair is, that the bodies of the man and woman killed were declared to be those of Mr. and Mrs. Beck by some of Mr. Beck's fellow workmen; Beck by some of Mr. Warren doubted, he could not be certain that they were not the same.

It is greatly to be regretted that this culpable deceit on Beck's part will probably be the means of creating the cruelest distress and uncertainty in some bereaved family. It is doubtful if any means of identification has been preserved; but if the smallest portion of the clothing or property found on the hapless sufferers is still in the hands of the authorities or anybody else at Hamilton, it ought to be preserved with the greatest care.—*Toronto Colonist.*

CHICAGO, ST. PAUL, AND FOND DU LAC RAILROAD.—The following dispatch was received yesterday:

NEW YORK, April 24.

Ogden, Fleetwood, & Co.:

Dodge, Bacon, & Co., of London, have resumed payment. Our business with them is closed without loss.

CHARLES BUTLER, Treasurer.

This will, of course, put quietus on the rumors which have involved the Chicago, St. Paul, and Fon du Lac Road in a loss of a million of dollars, by the failure of the house named in the dispatch.—*Chicago Tribune.*

KILLED.—As the freight train on the Chicago, St. Paul & Fond du Lac Road was passing from Dunton, in Ill., towards Chicago last night, and being under full headway, the Engineer discovered an object lying on the track, but not in time to stop the train before the engine reached and passed over it. It proved to be a German who had laid down on the track. His head was severed from the body, and the body itself was dreadfully mangled. It is supposed he was intoxicated.—*Janesville Standard.*

THE IOWA ELECTION.—Notwithstanding the apathy displayed by the Republicans at the late election in Iowa, we think there is not much doubt of the election of the Republican State Ticket. As far as heard from there is a decided Republican majority.—*Chicago Dem. Press, April 25.*

A NEW VIEW OF PRIVILEGE.—The Ohio *State Journal* gives the following report of a speech made by a Mr. Plump, of Trumbull county, and which is a model of its kind:

MR. SPEAKER—I rise to a question of privilege. I have been abused by the Ohio Statesmen, (the locofoco paper.) I consider it a great privilege to be abused by that paper.

Correspondence of the Sentinel.

Fire Proof Safes—Silas C. Herring & Company.

NEW YORK, April 20, 1857.

To the merchant and business man there is no thought more satisfactory than during the silent watch of the night, and amid the ravages of the conflagration, that the fruit of his industry and enterprise, and the condition of his mercantile standing and character are beyond the reach of depredation or destruction, and to the promotion of this confidence nothing has contributed so much as the improvement which for the last ten years has been made in Fire Proof Safes. A business man may rest from his business at night, and in the morning his store as well as his goods destroyed by the ravages of fire, yet he is none the poorer by this sudden calamity, for the Insurance Company becomes the loser, and not himself, while, if he neglects to furnish his establishment with a proper safe for the protection of his books and accounts, he has lost that which cannot be replaced, and what insurance does not cover. This less may plunge him beyond the power of reinstatement, for while the store can be rebuilt and the stock of goods renewed, his books and papers are irretrievably lost, and will cause him years of labor as well as the impossibility to collect his debts, and produce evidence of his contracts. It, therefore, behoves every man not only to insure his building and his store, but his counting room, from burglars as well as from the devouring element of fire. To do this the only security has been in the invention of the Fire Proof Safe, which, with the great improvement for the last few years has established the fact that there is a power that controls even the burglar as well as the fiery element by frustrating their attempts at destruction.

The business of manufacturing Fire Proof Safes has increased within the last few years in this country almost beyond belief, and so necessary has become that article that no business house of any importance can dispense with it. The frequent occurrence of conflagrations in a city like New York, as well as in towns and villages throughout the country, make the business of Safe manufacturing a most important branch of domestic industry. To give our readers an idea of the magnitude of this branch of trade, we have selected the well known manufactory of Silas C. Herring & Co., for the purpose of giving a brief description of their large and extensive business, showing the vast quantity of articles put into the market, during the year. Silas C. Herring, the originator of the house, originally commenced business in Water Street, about the year 1841. The space occupied by Mr. Herring at that time was very small, occupying one or two floors, 25 by 50 feet, and the amount of safes sold during the first two or three years, probably did not exceed $20,000 a year. Then, a stock of safes on hand composed of not more than fifteen or twenty, was considered large.—Now, Mr. Herring's premises consist of three stores on Water street, 25 by 50, one on Depuyster street of the same dimensions, a magnificent store on Broadway, which has a front on Broadway of 25 feet, and extending on Murray street 110 feet, an immense factory on 9th Avenue and Hudson street. This latter establishment extends 175 feet from street to street, occupying over 7000 square feet of ground, being five stories high, which with the street vaults that extend 42 feet from the main building, extending the whole length of the premises, giving nearly, were the five floors and vaults stretched out upon one space, the enormous quantity of room of upwards of 1½ acres. This, with a large building on Greenwich street, improved as an iron foundry, will give the reader some idea of the business which the house is engaged in.

Twelve years since, 15 or 20 safes were considered a large stock, now the firm have from time to time a stock on hand upon their own premises and in the hands of agents varying from 900 to 1200 safes, valued from 150 to 2000 dollars, requiring in several processes of manufacturing, from 250 to 300 hands, independent of steam power and vast numbers of improved and extensive machines, resulting in their annual sales of upwards of $1,000,000. This position in business of Mr. Herring, has been the result of great perseverance, wonderful tact and enterprise, anticipating the wants of the business community, and introducing and encouraging new and valuable improvements, and constantly on the watch for all new developments that would assist and benefit the great object to be attained in the production of a fire and burglar-proof safe, approaching as near as possible to perfection. These safes have repeatedly undergone the most severe trials and tests by the severest conflagrations and the adroitness of thieves and burglars, receiving the highest premiums wherever they have been exhibited, in this country as well as in Europe, from the Crystal Palace Exhibition in London down to the County State fairs in the United States. Mr. Herring has never shrunk from any trial or test of his safes, where he was satisfied of fairness and an honorable course of investigation. These safes of Mr. Herring have been introduced in thousands of business houses in the United States, and have been forwarded in many instances to all the neighboring countries, as Mexico, South America, and the West India Islands, as well as to Australia and in many parts of China and the East Indies, and in several cases to France and England.

In the State of New York alone, there are over five thousand establishments who have purchased their safes from this house within a few years back, while there is not a town in the Union which has not received more or less sales from Herring & Co., from the following agents established by the firm. It will be seen that every portion of the country finds a mart for their safes. Agents:

Farrels & Herring, Phil.,; Roberts & Davis, St. Louis; C. L. Harmon & Co., Chicago; Lansing Bonnell, Mil., Wis.,; R. R. Deacon, Fond du Lac, Wis., M. Howard, Webster, Detroit, Mich.,; Weeks & Warren, Buffalo, N. Y.; A. Watrous & Co., Ogdensburgh, N. Y.; B. W. Knowles, Richmond, Va.; Charles A. Cook, Plattsburgh, N. Y.; Garland & Lester, Peters burgh, Va.; Rowland Brothers, Norfolk, Va.; J. P. Smith, Alexandria, Va.; Thomon & Co., Lynchburgh, Va.; Henry H. Williams, Charlestown S. C.; Bell & Prentiss, Savanah, Geo.; Mazange & Co., Mobile, Ala.; C. C. Miller & Co., New Orleans, La.; Thomas Martin & Co., Houston, Texas; Geo. Hagar, Montreal, Ca.; J. Bray, Hamilton, C. W.; Fitzgerald & Co., San Francisco, Cal.; F. B. Beddome, London, C. W.; J. R. Blossom, Wilmington, N. C.; James Henderson, Toronto, C. W.; James T. Mix & Co., New Haven, Ct.; W. B. & R. S. Tucker, Raleigh, N. C.

Those who have not given the subject of safes much consideration would be surprised to see the great variety manufactured, both in size and finish, being constructed of any size or shape, for books and accounts, banks, Insurance Companies, Public buildings, Jewelry, and for dwellings in the protection of plate, etc.

Among the most notable safes which have ever been manufactured by this house were those for the Park Bank, Importers and Traders Bank, Shoe and Leather Bank, Ball Black & Co., Broadway Bank, and the Citizens' Bank, ranging from ten to fifteen tons each, and are remarkable specimens of American skill and genius.—Safes from this size down to the small iron Express Chest, weighing but a two hundred pounds. The facilities of this house being so extensive that they can produce safes of any desired size, and deliver them as a whole, or fitting by places into vaults or walls of the building. It is unnecessary for us to dwell upon the merits of these safes. The vast number of certificates from all parts of the country, the great number of premiums from the country and in England, have so placed them before the community as to admit of no argument but the one in their favor—our object only being to show the extent to which Messrs. Herring and Co's business is carried, and the great demand for safes manufactured by the house throughout we may say the tured by the house throughout we may say the business world, and to better illustrate it, we will briefly allude to Messrs. Herring's several establishments in this city, required in the conducting and prosecuting of their operations.

STORE ON WATER STREET.—This may be designated as the original Warehouse, having been occupied by the firm for the last 16 years. This store, called the Green Block, occupies four lots, and is devoted exclusively to the selling of, and receiving orders for safes, and is completely filled with every description of safes made by the firm, the stock on hand being very large, and probably exceeding $100,000 in value. These premises are under the superintendence of Mr. Allen N. Leet, as the general superintendent of books and accounts, and E. J. Sherman in the selling department, both these gentlemen being partners in the house since 1855. This, with a large number of assistants, comprise the force required here.

BROADWAY AND MURRAY STREET.—Here we have one of the finest and most elegant stores to be found in New York, recently erected, and the whole building leased to Messrs. Herring & Co. for a term of years. Mr. Herring underlets the upper portion of this store. This store has a front on Broadway of 25 feet, and extends down Murray street 110 feet, being lighted by ten windows, being the first floor from the street, and is devoted to the exhibition of immense numbers of specimens or sample safes, of all the various kinds, comprising a stock which excels any other establishment in the city. It would be impossible in our limited space to designate the various patterns, sizes, and kinds, here to be seen, the whole of the premises being under the immediate superintendence of Mr. Herring himself, who also has the general management in all the several departments at the factories and the stores. This building is universally admired for its beauty and general external appearance being built of Nova Scotia sand stone, and furnished throughout in the most substantial and thorough manner. The upper part consisting of five spacious floors, each 100 by 25 feet is occupied by the well known house of R. T. Wilde, for many years located as 20 and 22 John street. The house is most extensively engaged in Millinery Goods containing probably the largest stock of these goods to be found in the United States. The building was designed and finished by Mr. Henry, the architect, and reflects great credit upon his professional skill.

FACTORY IN 9TH AVENUE.—We have no space to give a complete description of these extensive premises, being 175 feet long by 25 wide, forming a complete block of itself, fronting on four streets, being five stories high from the sidewalk, and six from the foundation, thus giving an open space for air and superior light for workmen. This immense building is entirely occupied by the firm, giving employment to upwards of two hundred hands the year round. From a recent visit through the entire premises we were greatly interested and found much valuable information relative to the process and manufacture of Iron Fire Proof Safe. We will commence our brief description with the Cellar and Street Vaults.

BASEMENT.—This part of the premises being devoted to the forging of iron and preparing it for use. We noticed a large number here employed in various departments of the work, such as cutting and shaping the iron, drilling, etc., using in cutting the celebrated box cutting machine, which took the highest premium at the World's Fair. The quickness and despatch with which a plate or bar of iron can be severed by this machine was truly a wonder, cutting a 2 inch bar as readily as a pair of scissors would separate a small cord or tape.

STREET VAULTS.—This is one of the curiosities of the day, being probably unequalled by anything of the kind in New York. These Vaults have a foundation 12 feet below the street, and extend 175 feet on the Avenue and 42 from the building, being lighted from the walks above.—This immense space underground is used by the firm in the preparation of the article used for filling up the Safe which, in fact, causes the safe to be Fire Proof. This article is of white texture, and is stored here in bulk. The quantity here often ranges from 400 to 500 tons, requiring a large number of hands in mixing and preparing the article for use, undergoing as it does, several chemical processes by the aid of steam, machinery, etc. This will give the reader some idea of the magnitude of this vault—built expressly by the firm at an expense of upwards of $12,000.

1ST FLOOR.—We now come to the main room of the building, being divided into three several departments, for the examination of safes, and preparing them for forwarding to buyers, or to the stores on Broadway and Water street. Here we saw several large and valuable safes, nearly completed, one of immense size ordered by the large house of W. H. Cary & Co., for their new premises on Chambers street. This immense safe, which will weigh when completed upwards of six tons, is a most superior specimen of workmanship, and will measure 7½ feet square. Also a large safe for Robert L. Maitland & Co., one for the Registry office in this city, one for the Etna Fire Insurance Company, Hartford, Ct., two for Delmonico's on Broadway, one for Dr. W. B. Moffat, one for Freeman & Bennett, and one for the St. Nicholas Hotel, also three very large jewelry safes for A. G. Perry & Co., on John Street. We speak of these among the many hundreds in process of completion, being of a larger and more attractive character. We also noticed several safes in process of completion, adapted to dwelling houses for the preservation of house plate, from burglars and thieves. These safes are made and finished in imitation of furniture, being made to conform to the artistic design of the furniture of the house, so as to represent Rosewood, Mahogany, Black Walnut, etc. From the recent number of house robberies, this has become quite a large feature in Messrs. Herring & Co.'s business. Their safes can be so finished as to become an article of beauty as well as use, either in the dining room or parlor.

2D FLOOR.—This floor is devoted to the setting up and fastening in the places and preparing them for the filling. This floor presented a very exciting scene, from the large number of workmen, and the clinking and noise made by the blows of the hammer and machines.

3D FLOOR.—This may be designated as the machine shop, employing between twenty and thirty men in drilling and turning out knots, bolts, screws, rivets, bars, hinges, &c.

4TH FLOOR.—Devoted to the finishing and preparing them for the wood-work, and painting.

5TH FLOOR.—This floor is devoted like the floor below, to the finishing department of the iron work, reserving a large space on this floor for the manufacturing of locks, known as the Hall Patent Powder Proof, which gained the highest premium at the late fair of the American Institute, in competition with thirteen others. This lock has the advantage over others from simple construction and cheapness in price, and having never been picked by burglars. Messrs. Herring & Co. have also the patent of Jones' Combination Figure and Letter Lock, and of Cygler's Combination Lock and also Cygler's Combination Figure and Letter Lock, each of which cannot be picked without a key.—This lock it has been estimated that a man working ten hours a day, would stand but one chance in sixty years in succeeding to pick it. It is used mostly by banks and jewelers. We are compelled from want of space to bring this brief description to a close, believing, however, we have succeeded in giving our readers a good idea of the extent and character of the business in which Messrs. S. C. Herring & Co. are engaged. They are undoubtedly the largest manufacturers in the United States, as well as the world. Mr. Herring, the original and principal partner, is a gentleman well known in the country, as an enterprising and a most reliable business man, free and open in his business associations, winning the respect of the business community, and loved and respected by his workmen. His business is conducted upon the true principle of trade—being honorable and straightforward in his dealings.

The Lumber Trade for 1857.

From what we can learn, the amount of lumber which will be sent to the lower markets from the Upper Mississippi pineries this year will be much less than last year. It is thought that the supply from above the Falls of St. Anthony will not be more than sufficient to supply the demand above the St. Croix. In the St. Croix the amount put in during the past winter is estimated to be one half less than the amount put in one year ago. When we come to the Chippewa, we find the decrease in the amount will be very large, owing to the destruction of the immense mills of Wilson & Co., on the Menomonee, which would have sent to market this year fifteen or twenty millions. H. S. Allen & Co., at Chippewa Falls, however, do a large business, and if fortunate, will send out a large amount, as will also Carson & Eaton, at the Eaux Galle Mills.—D. Morrison & Co., have some six millions of feet of logs in this river but only expect to get out this year some two millions. On Black River and on the Wisconsin river, we are informed that the operations during the last winter have been comparatively light. We infer, therefore, with the increased demand for lumber throughout the Mississippi Valley, and the diminishing supply, that the prices will rule higher this year than ever before.—*Prairie du Chien Courier.*

HOUSE OF REFUGE.—The public are aware that the Governor has appointed Messrs. Martin Mitchell, of Oshkosh, W. D. Bacon, of Waukesha, and Edwin Palmer, of Milwaukee, Commissioners to locate a site for a House of Refuge for juvenile delinquents. The law stipulates that the Commissioners shall locate it at a point, where the people of the place will be the most liberal in providing a site, and furnishing money or materials to add to the $20,000 appropriated for erecting the building. The State gives the above amount, and all that can be raised in addition by subscription, is added to it to beautify the establishment.

This being the case, we suggest that Fond du Lac compete for the prize, and make up an inducement that cannot be surpassed by other places. Large Land Proprietors can afford to do something handsome in the matter, and it will be returned to them in the end. The Committee are to decide the matter soon. Shall Fond du Lac invite them here, or never make an effort to obtain the location?—*Fond du Lac Commonwealth.*

CARD.

Presented to the Proprietor of the Wautoma Hotel, Wautoma, Waushara Co., Wis.

We, the undersigned, as guests at the Hotel of E. B. Martin, during the term of Court, commencing April 13th, would return him our thanks for the polite attentions and excellent fare with which he has favored us during our stay with him. Mr. Martin, as a Landlord, has evinced a spirit of accommodation and a disposition to render his guests comfortable that shows him to be possessed of the genuine qualifications of a successful candidate for the favors of the travelling community. As a caterer to the tastes of his guests, we have never seen him excelled in the West.

As a gentleman and a Landlord, we would recommend him to the travelling public generally.

RIVER ITEMS.—The H. T. Yeaman and Reveille were from Lake Pepin yesterday morning, being the first boats from that point since the opening of navigation. A large number of passengers, including many of our merchants, arrived by these boats.

The Minnesota packets and several transient boats are plying regularly between the foot of the Lake and ports below, bringing up passengers by hundreds.—*St. Paul Minnesotian, April 17.*

TIES.—We understand that Messrs. Fifield & Wood have made a contract by which they agree to furnish fifteen or twenty thousand railroad ties, on or before the first of August, to the C., St. P. & F. du L. R. R. They are to be delivered in the vicinity of Janesville.—*Jeffersonian.*

THE MARKETS, &c.

OFFICE OF THE DAILY SENTINEL,
MILWAUKEE, April 27, 1857.

Received by Rail & Lake.—34 bbls flour, 2,172 bu wheat, 222 do potatoes, 102 hides, 4 hogs, 9 cars stone, 3,012 lbs sundries.

By Rail & La Crosse R. R.—1,224 bus wheat, 108 do barley, 154 bbls flour, 12,300 lbs lumber, 1,864 lbs hides and pelts, 4 bbls eggs, 14,972 lbs sundries.

By Rail & Horicon R. R.—414 bus wheat, 152 barrels flour, 1 car pails, 19 hides, 5,000 pounds sundries.

Market for wheat on Saturday still better, and best club spring sold at 95, average quality 93a96—winter slightly advanced—sales at 1,12a1 20. Sales of spring, free on board, were made at 1,00a1,02, and holders firm at an advance.

Rye nominally 70a75.

Barley, ranging from 1,30a1,60—very little doing.

Oats 45a48. Demand good—we notice a considerable advance in this grain at St. Louis.

Corn, 58a56.

Potatoes 75a81—good qualities in demand.

Hogs $3,40.

Hides—green 5a5¾—dry 11a20.

Freights—firmer. Owners of vessels are demanding 10 cents on wheat for Buffalo, and 15c for Oswego. The advance in wheat and corn, and speculative feeling rising in both grains, gives shippers more confidence, while the fact that there are not enough grain vessels afloat in this lake by some 50 to carry off the stock on hand for shipment, imparts firmness to vessel owners.

The propeller *Michigan* takes 500 bbls flour for Ogdensburg, and the propeller *Prairie State* 3,200 bbls for Montreal.

Chicago Market.

The Chicago Democratic *Press* of Saturday quotes the market for wheat active at an advance. It says that but little wheat is held in store at any point eastward, and quotes sales of some 30,000 bus spring wheat, at an average of $1,00, free on board; 200 bus red winter to mill at $1,08; and a car load of white winter to mill at $1,40. Corn is also advancing, and there were sales Friday, of 50,000 bus at 50c in store, and 53 free on board.

The *Tribune* says that the barque *Fontanelle* has been chartered at 7c with wheat to Buffalo, and the brig *J. H. Harrison* 18c to Oswego.

Wheat at St. Louis.

St. Louis, April 22, 1857.

MESSRS. WALKER, BROOKS & Co., Chicago:

GENTS—Our wheat market is improving. The demand to day was active and sales liberal—spring at several cents advance; 12,000 bus spring sold at $1,13, and others ranging as low as $1,05. Fall wheat is scarce and sought after; good and choice red $1,20a1,30; white $1,25a1,35. Corn is also active and in advance; mixed 51a53c; yellow 55a57c; white 55a56c, with some small parcels at 60c. Oats are scarce and wanted for home use. Prices advanced to day 1c.

Yours truly,

CHAPEL & VALLE.

PASSENGERS AT NEW YORK.—The correspondent of the Baltimore *Sun* writes as follows concerning the rates of ocean freights:

The freight business to Europe presents a frightful aspect to ship owners. There are over six hundred square rigged vessels now in port, of which some one hundred and three are steamers, and so great is the difficulty of finding employment that will pay incidental sailing expenses, to say nothing of earning interest on money invested, that many of them are laying idle, with their sails either lashing leisurely in the breeze, or dismantled. Grain rates to Liverpool have settled down to 8d, which is ten per cent less than for the paucity of tonnage would warrant, as it costs as much as it ever did, if not more, after erecting bins and furnishing bags. Other produce is taken at correspondingly low rates, and the offerings light at that.

At our last N. Y. dates, freights on grain had risen to 9½d.

MILWAUKEE HARBOR.—The Chicago *Tribune* of Saturday publishes the following:

Vessels of light draft are able to come into the river and take a portion of the loading. There is between 5 and 6 feet of water on the bar.—*Milwaukee Herald.*

This is a wrong *Herald*; and vessels of heavy, as well as light draft, can come into our river and take on *all* the light loading. There is 12 feet water at the old Government Harbor, and all the way up to Walker's Point Bridge.

SHIP BUILDING AT BUFFALO.—The Buffalo *Commercial* gives a detailed account of the operations at the shipyards in that city during the winter and spring. We make the following table from its article:

	Tons.	Cost.
Steamer City of Buffalo	2,000	$300,000
Steamer City of Cleveland	800	70,000
1 steam tug	100	10,000
1 Schooner	2,425	177,000
D. M. O'Connor:		
8 Propellers	1,650	56,000
2 steam tugs	60	8,000
3 schooners	750	18,000
1 do	250	12,000
3 schooners	1,054	
2 N. Jones:		
3 propellers	1,050	180,000
2 schooners	1,075	83,000
E. B Jones:		
1 steam tug	200	25,000
3 schooners	1,275	60,000
Vanslyke, Nutter & Co:		
2 steam tugs	190	50,000
3 propellers	750	60,000
	13,969	$1,675,000

This, of course, makes no account of the vast amount of repairing done at the same yards. They have furnished employment to more than 3,000 men.

DUNKIRK HARBOR.—The Cleveland *Herald* of the 23d says:—"The Propeller *Jersey City*, with full cargo, sailed for Dunkirk this forenoon. By letters received yesterday we learn that the *Ocean* was in the ice trying to work her way out from Dunkirk, and the *Oswego* was also in the ice, within a mile of the harbor, endeavoring to get in.—The *Elvira* had tried the ice but found it too strong and went back. The ice off Dunkirk is softening, but it is said that one place, not far from the breakwater, and in 22 ft. water, is to go round. The propeller *Portsmouth*, bound for Dunkirk, was lying at Erie."

LAKE PERIL—ICE FAST ROTTING.—On Tuesday last, Capt. Scott, of the Golden Era Steamer, broke several hundred feet of the ice on the Lake. It is fast rotting, and cannot hold on much longer.

Change in Mail Arrangements.

It will be seen that the following changes have been made in the mail arrangements:

1st—The through mail to Madison and Prairie du Chien closes at 5:30 P. M., instead of 7:15.

2nd—The Post Office opens at 9:30 A. M., instead of 8.

3rd—Sundays, open from 12 to 2, instead of from 12 to 1, and will not be open from 8 to 9 A. M., nor from 5 to 6 P. M.

This change on Sundays, by which the office is open two hours in the middle of the day, and closed the balance of the day, if concurred in by by our citizens, gives double the time heretofore given at that time, when most people call for their mails, and gives the clerks and employees in the office an opportunity to attend Divine Service on the Sabbath, which they would be deprived of under the other arrangement. As there are no mails received on Sunday, the only object in opening the office three times a day, is for the delivery of matter received by some mail pr. vious to that day, and, we are informed, that very few persons call for mail at the morning or evening hour. This change is made at the suggestion of business men here, and if generally satisfactory, will be continued, if not changed.—*News of Saturday.*

MATSON, LOOMIS & HOES—CORRECTION.—Printers, as well as the rest of mankind, will make mistakes sometimes; owing to this failing in human nature, we, or rather one of our types, made some ludicrous blunders in the advertisement of Messrs. MATSON, LOOMIS & HOES, in our paper of Saturday. For *Matson* we had *Watson*, and when we would have said *clocks*, the types made us say *blocks!* You will see by reading their advertisement, (which is corrected this morning) that they have a large assortment of clocks—(not blocks, for they don't deal in those articles, except it is blocks of gold,) watches, and every variety of jewelry, which they offer for sale, at wholesale and retail, as cheap as any establishment in the whole West. You will also see that they have associated with them in business Mr. NEWELL MATSON, of Owego, N. Y., a competent and experienced workman, and a good business man. With this addition to their extensive establishment, they cannot fail to meet the wants of the public, and we hope that they may realise that the public appreciate their merits.

REMOVAL.—Messrs. JONES, DINSIN & JONES have removed from their old stand, 119 East Water street to the store in the Phœnix Building (corner East Water and Michigan streets) recently occupied by BONESTAL.

Their store is roomy and well located; their stock of goods very large and of the best quality; and they have secured the services of H. B. FOX, late of SHERMAN & Co., who will be glad to see all his old friends and to make plenty of new ones. See the card of the firm in our advertising columns.

LIQUORS.—Messrs. A. H. BACON & Co., have taken the brick store at the southeast corner of East Water and Chicago street, where they are about opening a stock of foreign and domestic liquors. Mr. BACON has been in business for a long time in this city—latterly with E. D. BACON & Co.—and has a large acquaintance, who will seek him out in his new location.

THE CHICAGO MAGAZINE.—Mr. Dillabaugh is the canvassing agent for this publication in our city. It is designed as a Chicago and Western Magazine; is published monthly, with 100 pages of reading matter and numerous illustrations, and is furnished to subscribers at $3,00 a year. Specimen numbers are furnished to those who wish to examine the work.

FIRE.—The alarm of fire for the Fifth Ward, between one and two o'clock, Saturday morning, was caused by the burning of an old barn, on Mr. EBERARDSON's place, near Burnham's brick yard. A cow and some grain were consumed with the barn. We did not learn the extent of the loss.

ITALY.—Dr. Baird lectures this evening upon the wonders of classic Italy—including *Herculaneum* and *Pompeii*, and the Ruins of Rome. The subject will be illustrated by paintings of Rome, Genoa, the Coliseum, the Arch of Titus, the Castle of St. Angelo, &c. It will afford a rare treat to all who attend.

THE STRAIGHT CUT.—The Board of Trade, at their meeting Saturday night, appointed a Committee to wait upon the Common Council and urge the immediate prosecution of the Harbor Improvement. We hope that the Council will act *to-night*.

THE SPRING RAINS—COME AT LAST.—The rain commenced falling gently, but steadily, Saturday afternoon, with every prospect of a continuance. It breaks "the spell of winter" we have had for some months past, and will, we hope, inaugurate the spring, now past due.

HOGGISH!—There are large bills of North's Circus posted up through the city, headed "Big Circus" Some wag has taken the trouble to erase the lower part of the B. in the word "Big," making it read "*Pig Circus!*" This is decidedly complimentary to Lieut J. NORTH!"

NOTICE TO WOOL GROWERS.—We invite attention to the card, in our advertising columns, of Mr. B. M. VAN SICKLER, of Albany, an extensive and responsible wool dealer. He is prepared to do a large business and offers favorable terms to those who send, or sell their wool to him.

ERROR.—We were mistaken yesterday in mentioning Mr. E. PALMER, of this city, as one of the Lunatic Asylum Commissioners. Mr. Palmer is a member of the House of Re'ugs Commission.

TAKE HEED.—All the Massasoit House, Chicago, may be obtained until June, Old Dr. James' wonderful and celebrated extract of Carnibi's Indica. His son-in-law, Dr. Thomas Tilton will supply you with either personally, or by Express. It is a sure and speedy cure of the worst cases of consumption, bronchitis, asthma, nervous debility, coughs, colds and sore throats. We know this to be a fact. Try it and live.

P. S.—By addressing Dr. Tilton a note through the Chicago Post Office, inclosing four stamps (12 cents) a receipt will be sent in return, free of charge, to any part of the Union. Dr. TILTON,

COPARTNERSHIP!

LOOMIS & HOES,

HAVING associated with them in general Copartnership, NEWELL MATSON, of Owego, N. Y., Manufacturer of

JEWELRY
AND
SILVER WARE,

UNDER THE NAME,
MATSON, LOOMIS & HOES,

STATE that our past efforts prompts to still greater exertion in the perfecting of the

LARGEST AND CHEAPEST
Wholesale, Retail and Manufacturing
JEWELRY STORE IN ALL THE WEST!

As one of our firm is engaged in manufacturing many of our goods, we are therefore prepared with double facilities, to meet the increasing demand for goods in the western country. Dealers will find it to their advantage to make their purchases of us, as we shall at all times keep up a full assortment of goods, and will be, to sell fine, reliable goods. We shall also keep such goods as may best suit the market of our various customers in trade.

To our city patrons and friends, who have so liberally sustained us, we return our sincere thanks, hoping always to so deal by you as to merit a continuance of your kind favor. We respectfully invite you to an examination of our new goods, which we are now and will be frequently receiving. Our limited space will not permit of a numerous list of the many fine and beautiful goods making up our assortment. The cultivated mind best appreciates the artistical skill and cunning work of the artist by observation.

Railroad men and others requiring correct time will always find the BEST WATCHES IN MARKET for that purpose, as we intend to sell the best—consequently cannot be persuaded to part with the Cheap by honorably, and no goods misrepresented. The best and most complete stock of Watch Tools, Materials, Glass, &c., in the west.

The most competent workman to repair Fine Watches to be found.

All orders will meet prompt attention.

Also, a Superior Astronomical Transit, for the correct regulation of the Rail Road and City Time—the only one in the city. We can give the time to a second, it being the only way that time can be determined accurately.

☞ Remember the place.

THE MODERN WHITEFIELD.

JUST ISSUED,
SPURGEON'S SERMONS,
SECOND SERIES,

REVISED BY THE AUTHOR, and published with his sanction, containing a new steel plate portrait, engraved expressly for the volume.

Never, since the days of George Whitefield and Edward Irving, has any minister of religion acquired so great a reputation as this preacher in so short a time. There is no man in Great Britain who can draw such immense audiences, and none who, in his happiest efforts, can so completely enthrall the attention, and delight the minds of his hearers.

THAT COMPOSITION
ROOFING!

WEST'S PATENT GALVANIC CEMENT!

WHICH PROPERTY HOLDERS in this city and State are substituting for Shingle, Tin, Iron and Slate for covering buildings, has been in use over fifteen years, but only to a very limited extent, until within the last five or six years.

It was first used simply for *stopping leaks* of shingle roofs, about chimneys, scuttles, gutters, &c., and for covering the roofs when they had become defective and worthless; then for covering over old shingle roofs, and finally for *entire new roofs*.

It is *unlike* any other composition roofing materiel, and differs in one *more very essential particular*, in that it has

NEVER FAILED!

And consequently gives *perfect satisfaction*.

The following *facts* and *testimonials* are in substance, such as are obtainable, and have been introduced:

Within the past year, I have paid *three hundred and seventy three* dollars for *repairing leaky* and *defective roofs*. The composition used for such purposes, was West's *Galvanic Cement*, for roofing. I am so well satisfied of the *value received* for the expenditure, and of the superiority of this article for roofing purposes, over any other article now in use, that I have engaged to have it applied to the building which I am having erected on the corner of East Water and Michigan St.

ALEX. MITCHELL.

During the winter of 1856 and 7, I had *West's Galvanic Cement* for roofing, applied to the Excelsior Block erected on the corner where the United States Hotel was burned. This roofing although yet in an unfinished condition, having only about *one half* the composition of a complete roof, and that put on in the most *unfavorable season*, is in *all respects* answering its purposes of a complete roof. *These facts*, together with many others within my knowledge are such that I fully concur in the opinion expressed by more than one and years of experience with this roofing material, that it is the most *perfect* and *reliable* article for covering buildings that has yet been offered to the public.

J. B. CROSS,
Mayor of the city of Milwaukee.

I have had the composition above referred to applied to the *Newhall House*, during the past winter, and my *experience*, *knowledge* and *opinion* correspond with and fully corroborate the above facts and conclusion.

DAN'L NEWHALL.

From our knowledge of the composition for *covering buildings*, known as *West's Galvanic Cement*, for roofing, which has been very extensively used in this city the past year, with perfect satisfaction to those who have adopted it, we feel cheerfully recommend it as *superior to any other article* of the kind now in use, and worthy of the fullest confidence of the public.

Martin & Eagle, A. C. Nash,

P. A. Hallman, Dillenberg,
F. S. Tebeau, Zaker, Architects.
J. & A. Douglass,
John French,
Edwin Palmer,
Master Builders.

Since this article has come into general use there have been numerous patent *compositions*, *imitations* and *impositions* offered to the public; they have had their "brief days" of pretention, but the *time of trial* has proved them *all* lacking some of the *essential requisites* for a *perfect* and *reliable* roof, as we are *abundantly prepared to show*.

We learn through our master builders and architects that almost all the buildings under contract for the coming season are by contract to have *West's Galvanic Cement Roof*.

N. B.—Testimonials of the most satisfactory and conclusive character from citizens of Chicago, Detroit, Cleveland and other eastern cities, where this article has been thoroughly tested for years, can be seen at the office of the subscribers.

Great and Extensive Sale of Lots in Portage City, Columbia Co., Wis.

TWO HUNDRED LOTS.

THIS CITY OF PORTAGE is a very desirable place for business, and a gold-en great improvements to all who are now emigrating to Wisconsin. It contains a population of from ten to twelve thousand. It is handsomely situated, and has a fine water power connected therewith, and other city in the West has. There are already two Banking Houses and several Exchange Offices there. The city, in a few months, will be the focus and Water W ys. It contains as fine brick store houses and dwelling houses as you will find in any Western city and its location and situation for business one can see at a glance on the map. It has the advantages of the navigation of the Wisconsin and the Canal. It will, in a short time, have from three to four Railroads. The Lt Crosse Railroad is now completed to Portage. In fact, there is no city out of Milwaukee, which holds out such inducements and its prospects so flattering as Portage City; and I would say to all who have money to invest, and who are seeking a location to go and visit Portage City and examine for yourselves. The La Crosse cars run there twice every day. The lots which I am going to sell, I have had surveyed by Government Surveyors, and business property. Maps of the said City are now at the City Land Office, and any one who desires any other information as regards the said lots for sale, I will give them all the information they want. They list of lots I will publish in a few days. They will be sold on very easy terms.

HARDWARE.

NO BLAZE! NO BURNT STEAKS!
No Smoky Kitchen!
ROBINSONS DOWNWARD DRAFT
GRID IRON.
"What though with lavish kindness
The Sirloin steaks are strewn,
Some Bridget in her blindness
Will cook them hard as stones."
The author of the above lines should purchase one of Robinson's Grid Irons, and the poor Bridget would have something on which she could cook a steak as it should be.
[From the Boston Advertiser.]
A good beefsteak, well cooked, so seldom appears in the line of most men's lives, that we think a very great advance has been made in civilization by the introduction of a new *gridiron*, which enables even a stupid artist to cook a steak perfectly well. So great is the advance, that we gladly call to it the attention of our readers.
This new gridiron accomplishes three desiderata:
1. It saves all the gravy of the meat, none dropping into the fire.
2. It cooks the steak through, without burning the outside.
3. It prevents the passage of any smoke into the kitchen or house.
The grand result, as we are made certain by the judgment of many experts, as well as our own more fallible taste, is, that with less trouble, meat is broiled better than ever before.
